## 86<sup>th</sup> EAS Congress, Lisbon, Portugal, May 05-08, 2018

### INSTRUCTIONS TO PREPARE YOUR SCIENCE AT A GLANCE PRESENTATION

FILE FORMAT ACCEPTED: **.PDF**

FILE FORMAT SUGGESTED: **VERTICAL, SIMILAR TO TRADITIONAL POSTERS**

MAXIMUM RECOMMENDED SIZE: **20 MB**

Consider that the file will be opened with a viewer program that adapts the scale to the screen display. It will therefore be more important the format than the size. **The correct format is vertical, similar to 70 basis x 100 height traditional paper posters.**

However different sizes will be displayed, but they will exploit less well the display on the monitor.

**NOTE:** Please consider that if your PDF is difficult to read on a small screen is almost unreadable on a larger screen; if you can read the details on your PC, it will also be readable on the e-poster totem.

Once the pdf file of your poster is prepared, zoom on the details that you want then to be visible. If you can display them correctly on your PC, it will be displayed correctly even on the e-poster.

The size in megabytes (MB) of the PDF is not a constraint for the operation, but only to fruition: a heavier files is definitely better defined, but it's slower to upload.

The simplest option is a single-page pdf but the system also accepts multipage PDF. It is advisable to realize a maximum of 5 pages for better use.

*We would kindly inform you that you could upload your presentation on the link that will be sent to you later on.*

According to the Congress registration policy, we remind you that the Presenting Author must register and attend the Congress. Registration is therefore compulsory in order to present an abstract during the Congress.

You can already enter your Web profile with the ID and PASSWORD used for the abstract submission and click on REGISTER TO THE EVENT here:

<https://services.aimgroup.eu/ASPClient/home2.asp?eventoid=3551&TypeIN=N>

We remain at your disposal for any further information or assistance you may need.

Yours sincerely,

Valentina Scovazzi
